

Good evening - Please see the below whip alert that just went to all House GOP offices:

- Tomorrow, the House is expected to consider the **Bipartisan-Bicameral Omnibus & COVID Relief Deal** (text is still being finalized and will be circulated once it is made available).

- **Leadership recommends a YES vote.**

Bipartisan-Bicameral Omnibus & COVID Relief Deal:

The final agreement represents a stunning defeat for Nancy Pelosi on the eve of her floor vote to save her Speakership. House Democrats held up aid to small business and workers, delayed funding for vaccine procurement and distribution, all to deny a win for President Trump before the election. Republicans stayed united and focused on targeted relief to small businesses, making Operation Warp Speed vaccines available, and reopening school and the economy and this package delivers on those goals. The final COVID Relief package is approximately \$900 billion, or a net of approximately \$325 billion after rescinding \$429 billion in Federal Reserve 13(3) authority and repurposing unused PPP funds, compared to the \$3.3 trillion Heroes 1 and \$2.4 trillion Heroes 2. The final package does not include the Democrats' liberal wish list demands for blue state bailouts, checks for illegal immigrants, and federal prisoner release.
