

Spending highlights in the FY 2014 appropriations bill include:

- The Agricultural Marketing Services would receive \$79.9 million; GIPSA, \$40.2 million; Natural Resources Conservation Services, \$812.9 million; Commodity Futures Trading Commission, \$215 million; and the National Commission on Hunger, \$1 million.
- The FDA would receive \$2.552 billion, which is \$217 million above FY 2013. This includes increases of \$53 million to continue implementation of the Food Safety Modernization Act and \$19 million for improvements to medical product safety.
- The Food Safety and Inspection Service would receive \$1.011 billion to fund all current and future estimated inspection services.
- The Farm Service Agency would receive \$1.5 billion to maintain FY 2013 funding levels. The funding would support various farm, conservation, loan and emergency programs for U.S. farmers and ranchers.
- The Animal and Plant Health Inspection Service would receive \$821.7 million, which is equal to the FY 2013 level. Included in that funding level is \$20 million to fight citrus greening.
- Rural development programs would receive \$2.4 billion, which is a \$180 million increase.
- The Single Family Housing Direct Loans program would receive a loan level of \$900 million for a \$60 million increase.
- The Water and Waste Disposal Program would receive a loan and grant program level of \$1.752 billion for an increase of \$248 million.
- The Community Facilities Program would receive a loan and grant program of \$2.288 billion to fund rural community facilities including hospitals, schools, and health clinics.
- The Food for Peace program would receive \$1.466 billion in PL480 title II grants, for an increase of \$107 million. The bill also would maintain Senate language that aims to provide the administration with additional flexibility to implement development assistance around the world, while at the same time ensuring that U.S. farmers and shippers continue to be directly involved in providing international food assistance.
- The McGovern-Dole Food for Education Program would be funded at \$185 million, which is \$11 million above FY 2013.
- The Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) would receive \$6.716 billion for an increase of \$194 million.
- School cafeterias would receive \$25 million for equipment purchases, an increase of \$15 million above FY 2013.
- The Commodity Supplemental Food Program would receive \$203 million for an increase of \$21 million.
- The Supplemental Nutrition Assistance Program would receive mandatory funding of \$82.169 billion. The amount would fully fund the program and reflects the administration's latest estimates.
- The Agricultural Research Service (ARS) would receive \$1.122 million, which is \$105 million above FY 2013.
- The National Institute of Food and Agriculture would receive \$1.277 billion for a \$74 million increase.
- The National Bio and Agro-Defense Facility would receive \$404 million to complete construction.
